

AMBASSADOR NOTE • BRAZIL

Financial autonomy is a revolutionary act.

— MARIANA NUNES SANTOS GOMES

It is through work that
women have been able
to overcome the
distance that separates
them from men.

SIMONE DE BEAUVOIR • THE SECOND SEX

Millions of young women still face historical and social barriers to:

- **Financial education**
- **Decent jobs**
- **Entrepreneurial opportunity**

Young women, and especially Black women from low-income and peripheral communities, face informality, low wages, and no access to credit or seed capital.

**Rooted in centuries of
exclusion.**

One is not born, but rather becomes a woman, Beauvoir wrote. Financial autonomy works the same way.

NOT

A starting point.

BUT

Something built, through knowledge and opportunity.

20%

the **least** that gender equality in
the labor market could add to
global GDP.

Financial education.
Backing for women
founders.
Pay equity.

**Financial independence
is not just a goal. It is a
right.**
