

Financial health is a foundation for peace.

— MARÍA MANUELA CÓRDOBA AGUIRRE

WHAT WE USUALLY MEAN

WE THINK

Budgeting. Saving. Investing.

IT IS DEEPER

**The freedom to make choices,
the dignity to rebuild, and the
hope to imagine a better future.**

As a human rights lawyer working with victims of armed conflict, I have met people for whom the challenge is not growing wealth.

**It is recovering from
loss.**

After displacement, violence, or the destruction of a livelihood, financial health begins with something many of us take for granted.

**The opportunity to start
again.**

When survival
consumes every
decision, planning for
tomorrow becomes a
privilege rather than a
possibility.

MARÍA MANUELA CÓRDOBA AGUIRRE · FINMANGO AMBASSADOR

Financial stress reaches into:

- **Mental health**
- **Family relationships**
- **Education**
- **The confidence to pursue opportunities**

- 01 The opportunity to start again
- 02 Control over your own life
- 03 A place in your community
- 04 Lasting peace

Not just to survive, but to
dream, contribute, and
lead.
